College Prep Elementary School Board ends executive director search

ST. PAUL — The College Prep Elementary School Board met on Monday, December 19, to continue its search for a new executive director. No candidate was selected by the school board, and, as a result, the school board ended its search for now.

The school board has named Mary Yakibchuk, principal of College Prep Elementary Charter School, as the school's interim executive director, effective January 1, 2017. The school board will revisit conducting a search for a full-time replacement in the near future.
